In the version of this article initially published, there were two typographical errors in the SS (Sezary syndrome) row in the Arm A section of Table 3. The PRR (partial response rate) for both all patients and at MTD only should have been shown as “50 (2)” instead of “29 (2)” and “40 (2)”, respectively. The errors do not affect the conclusions of the study. The table has been updated in the HTML and PDF versions of the article.
